BRIGGS IDENTIFIED AS BOWIE'S ASSAILANT

WITNESSES POSITIVELY ASSERT THERE IS NO MISTAKE IN MAN UNDER ARREST.

Two men positively identified R. H. Briggs in police court yesterday afternoon as the Santa Fe porter who assaulted Hon. Alex. Bowie, of Gallup, on the platform of the local station Monday night, October 23d.

Briggs, who was arrested at Las Vegas Saturday night on complaint of Mr. Bowie, was brought into police court yesterday afternoon and asked to plead to the charge of assault with intent to kill. Briggs pleaded not guilty.

Mr. Bowie was present and told of the assault, the lack of provocation and other features which tend to make the case look bad for the negro. But it looked a good deal worse for him when two witnesses were introduced by District Attorney Clancy, who positively identified him as the man who struck Mr. Bowie. One of them was Mr. Ellsworth Ingalls and the other F. M. Clough, the Santa Fe superintendent of water supply at San Marcel.

Mr. Clough and Judge Ingalls were standing together on the station platform when the negro struck Mr. Bowie and were near enough to get a good look at him. Both men were positive in the identification, Mr. Clough especially declaring that he could not be mistaken in the man. Several other witnesses were called for the territory and the case was then postponed until the defense can gather its testimony. Attorney Felix Lester who appears for Briggs, said that the defense would be that Briggs did not leave his car while the train was here a week ago Monday night, a statement he expected to be able to prove. The efforts of the defense yesterday afternoon were to break down the identification but in this they were not particularly successful. Mr. Clough's identification being positive and unshaken.

It is not known when the matter will come up for the remaining evidence.

A number of drunks, disorderly characters and the usual grind of the Monday morning police court, delayed by Judge Crawford's absence, came up yesterday morning, some of the business going over until afternoon.

NEW DECORATIONS FOR THE ALVARADO

FORCE OF WORKMEN TEARING AWAY OLD TRILLS AROUND HOTEL AND STATION.

When the gang of fifteen or twenty workmen now employed around the hotel and station, are done their work the Alvarado will look like new. For some time past the decorations and stucco work around the caves of the big building has been dropping away, stray trunks and feet have served to nick the edges of things generally, and as a result a new trimming is to be given the exterior of the hotel and station from one end to the other.

The work will take considerable time as it is necessary to first remove all the old decorative work. The cement is hard as rock and has to be broken down with a chisel. When this is done the frieze, scrolls and art work around the entire building will be revealed.

The tower over the station building is also being worked over and several tons of sand and cement are being used there alone.

NOTICE TO WATER CONSUMERS.
Water tax is due and payable at office of undersigned between first and fifth of month.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.
